**EXECUTIVE DEPARTMENT**  
**PROCLAMATION**

EO 19-12

TO ALL TO WHOM THESE PRESENTS SHALL COME – GREETINGS:

**AN EXECUTIVE ORDER ESTABLISHING THE ARKANSAS CENSUS 2020 COMPLETE-COUNT COMMITTEE**

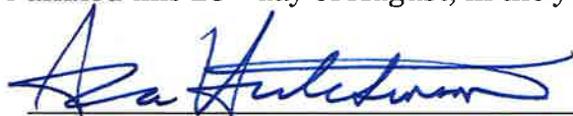

- WHEREAS: Article I of the United States Constitution, as amended by the Fourteenth Amendment, requires an enumeration of the population every ten (10) years in the form of a census, with the next decennial count scheduled to occur on or about April 1, 2020; and
- WHEREAS: United States Congressmen and Congresswomen shall be apportioned to the states according to their respective populations, which are to be determined by adding the whole number of persons in each state pursuant to Article I of the United States Constitution and the Fourteenth Amendment to the United States Constitution; and
- WHEREAS: The Board of Apportionment redistricts the Arkansas General Assembly after every decennial census using the final enumeration results gathered by the United States Census Bureau pursuant to Article VIII of the Arkansas Constitution, the Twenty-third Amendment to the Arkansas Constitution, and the Forty-fifth Amendment to the Arkansas Constitution; and
- WHEREAS: The Arkansas General Assembly determines the Congressional Districts for the State of Arkansas census using the final enumeration results gathered by the United States Census Bureau pursuant to Arkansas Code Annotated § 7-2-101 et seq.; and
- WHEREAS: Direct Taxes shall be apportioned to the states according to their respective populations, which are to be determined by adding the whole number of persons in each state pursuant to Article I of the United States Constitution and the Fourteenth Amendment to the United States Constitution; and
- WHEREAS: The United States Census Bureau estimates the State of Arkansas has seen over a three percent (3.4%) increase in total population since the last decennial census, which occurred on April 1, 2010; and
- WHEREAS: The State of Arkansas surpassed 3,000,000 residents in 2017 and has since grown by under half a percent (0.4%) to roughly 3,013,825 residents; and
- WHEREAS: An undercount of Arkansas residents could pose a significant loss to the State in federal assistance, where even a one percent (1%) undercount would equate to an estimated loss of \$990,000,000 in federal assistance funding formula grant allocations for the next decade; and
- WHEREAS: An accurate count of Arkansas residents is paramount to ensure the State of Arkansas receives a fair allocation of representation in the Nation's Capital and a fair allocation of resources to fund many of the federal, state, and local programs Arkansas residents utilize each and every year.
